- Campaign 46 achieved the highest ROAS (15.00) and lowest CPA (\$2.11), indicating strong cost-efficiency and ROI.
- Most high-performing campaigns cluster below \$15 CPA and above 10 ROAS — ideal benchmarks for future targeting.
- Ad spend peaked in Jan 2024, with a noticeable drop in Feb; Instagram saw the steepest decline.
- SEO and Website Tools were the top revenue drivers among products, while Feedback tools underperformed despite visibility.
- Recommend scaling top-performing campaigns, reallocating spend from low-ROAS efforts, and boosting promotion for high-revenue product categories.
